## Signature Pulls

Most of these handles hail from the stately office buildings of historic Toronto. For decades we reserved the originals of these pieces for movie rentals only - but as clients started to be more interested in a chunkier, over-sized feel for their hardware, we decided to create our signature line of solid brass reproductions. All are available in a number of finishes, including satin nickel and oil-rubbed bronze.

### TIP

Ever wondered what to call that hardware part? Visit us online at [thedorstore.ca](http://thedorstore.ca) to see our glossary of common (and not-so-common) hardware terms.
