Signature Strap Hinges

We've created our Signature Strap Hinges from some of our favourite originals that we've collected over the years. Crafted from light and durable cast aluminum with a satin black finish, they are a perfect addition to garden gates, wine cellar doors, or anywhere that needs some extra rustic charm.

These are plant-ons and do not act as hinges themselves, but rather can butt up against a flat black hinge for practicality and ease of installation. Any model can easily be cut if shorter lengths are required.
